## Pricing Principles

| PRICING PRINCIPLES                  |  | CODE | PRICING BASIS             |  |
|-------------------------------------|--|------|---------------------------|--|
| Market                              | Service provided is in competition with another agency (private or public) and there is pressure to set a price which will encourage usage of the service. | M    | Market Pricing            | Price of the service is determined by examining alternative prices of surrounding service providers. Pricing may or may not recover full cost. |
| In-house                            | Service provided predominately for Council use but sale to external markets may defray costs.  |      |                           |  |
| Public good                         | Service provides a broad community benefit. Impractical to charge for service on a user basis.   | Z    | Free (zero cost recovery) | Some services may be provided free of charge and the whole cost determined as a community obligation or public good.                           |
| Practical constraint                | Service is a minor part of the overall operation of Council. Cost of collection far outweighs revenue received.  |      |                           |  |
| Cost plus activity                  | The service is a profit making activity and the price paid by users should recover greater than the full cost of providing the service.                    | R    | Rate of Return            | This would include full cost pricing in addition to a profit margin to factor in a return to Council.  |
| Penalty                             | Fee charged is greater than the full cost of the service to act as a disincentive.   |      |                           |  |
| Utility                             | Fee charged for possession, occupation or enjoyment of Council land and air space by gas, electricity, water and telecommunications.                       |      |                           |  |
| Private good                        | Service benefits a particular user, making a contribution to their individual income, welfare or profits, without any broader benefits to the community.   | F    | Full cost recovery        | Council recovers all direct and indirect costs of the service (including depreciation of assets).  |
| Monopoly                            | Where Council has a monopoly over provision of the service and there is no community service or equity obligation.   |      |                           |  |
| Development                         | Fee set will enable Council to develop and maintain a service.   |      |                           |  |
| Contribution                        | Charges levied to compensate the community for an increase in demand for service or facilities as a consequence of a development proposal.                 |      |                           |  |
| Regulatory – non-fixed              | Fees charged to cover costs incurred in legislative requirements where no community service obligation exists.   |      |                           |  |
| Shared Benefit                      | Benefits from provision of the service accrue to the community as whole as well as individual users (Community Obligation).                                |      |                           |  |
| Stimulus                            | A stimulus to the demand for the service is required. In the short term only part of the cost of the service is to be recovered.                           | P    | Partial Cost Recovery     | Council recovers less than the full cost (the reasons may include community obligation or legislation limits on charging).                     |
| Evasion                             | Charging prices to recover full cost may result in widespread evasion.   |      |                           |  |
| Equity                              | The service is targeted at low income users.   |      |                           |  |
| Economic/ Social/ Community welfare | Service promotes or encourages local economic or social activity.  |      |                           |  |
| Regulatory fixed                    | Fixed by legislation   |      |                           |  |

### Development Application fees

NOTE: for staged development, the total DA fee for all stages must not exceed the fee that would be charged if the proposal was submitted as one application. Council will determine the appropriate proportion of the fee to be paid with each stage based on the amount of development proposed and the degree of assessment required.

If two or more fees are applicable to a single development application (such as an application to subdivide land and erect a building on one or more lots created by the subdivision), the maximum fee payable for the development is the sum of those fees.

## Bonds

### FEE STRUCTURE

All fees and charges for community facilities are subject to a minimum hire term of 2 hours, a standard term across all Bayside community facilities. All fees and charges are per space, per hour, unless advised otherwise. The standard fee is to be used in all instances where a specific fee type is not applicable.

### FEE TYPE

Standard Fee: Standard Fees are the base rate for hire and are applicable in situations where a 50% Fee Waiver Application is non-eligible or declined, or where a commercial fee applies.

Commercial Fee: Commercial Fees are included to specifically capture commercial operations. Commercial fees apply to all registered businesses and for-profit entities. Commercial fees are calculated at two times the standard Fee.

### SUBSIDY STRUCTURE

Subsidised Fee – 50% Fee Waiver Application: This is a subsidy request on application applicable to incorporated not-for-profit groups based in Bayside or who can demonstrate that their programs and services predominantly benefit Bayside residents. Subsidised fees are calculated at 50% off the standard Fee.

## Studios and Meeting Rooms

Bonds are already established in Council's 'Standard Administration Charges' for community and recreational facilities. The applications of bonds remain at the discretion of Council Officers.

## Recreational Fees & Charges

### Multipurpose Courts

FEE TYPE Standard Fee:

Standard Fee: Standard Fees is the base rate for hire and program participation and is applicable in situations where a concession, local resident / local school fee or commercial fee applies.

Commercial Fee: Commercial Fees are included to specifically capture commercial operations. Commercial fees apply to all registered businesses and for-profit entities. Commercial fees are calculated at two times the standard fee.

SUBSIDY STRUCTURE

Concession Fee: Council has set concession fees for Commonwealth Health Care Card holders to access Council run programs and services to support disadvantaged groups. Concession fees apply to participation in Council-run programs and services and excludes facility hire. Proof of Commonwealth Health Care Card will be required.

Local Resident Fee: Local residents of Bayside will have access to a subsidy off the Standard Fee. Applicants who are not eligible for a concession fee or local resident fee will be charged the standard fee. Fee applies to participation in Council-run programs and services and excludes facility hire. Proof of identity will be required, e.g. photo card, identity card, drivers licence or other qualifying evidence as nominated by Council.

Concession: 10% off standard fee

Local Resident / Local School: 10% off the standard fee

## Recreation

### Standard Administration Charges

Recreational Facilities: Sports fields, open spaces & reserves, parks, skate parks, beaches, foreshore, courts, community land, outdoor function areas, aquatic and leisure facilities and other recreational spaces as defined by Council

Standard Administration Fees: Additional fees and miscellaneous costs specific to Council services, discounts and fee waivers do not apply to standard administration fees

Standard Hire: Fees for the general public, including fees that are unlabelled or unspecified otherwise throughout this Schedule of Fees and Charges

Sporting & Community Hire: Fees for registered not for profit groups/organisations and sporting clubs/associations only

Commercial Hire: Fees for organisations and entities trading as a registered business or for commercial purposes only

#### Standard Terms – Recreational Facilities

- Council at its own and absolute discretion may request supporting documentation as evidence to demonstrate current registration as a not for profit or sporting club, association or organisation, throughout the booking process and lifespan of the booking
- Council at its own and absolute discretion will determine a sporting club, association or organisation's status as local or non-local, this status is not self-nominated or negotiated as part of the booking process
- A discount/fee waiver will not apply to fees that are already labelled as 'community hire', such rates already include a discount/fee waiver and in doing so excludes that fee from further/secondary discount
- A discount/fee waiver will not apply to standard administration fees and bonds
- Standard administration fees are non-refundable
- Administration fees will be charged for each individual booking application, this is not an annual or singular fee applicable to multiple bookings
- All fees are per space / per facility
- All hire is subject to availability, Council's allocation procedures and Council's Schedule of Terms and Conditions of Hire\

No fee waivers or discounts apply to Standard Administration Fees. Standard Administration Fees are payable in addition to hire fees and are non-refundable.
